

## SnowBlind™

SnowBlind™: The ultra-cool, ultra-white LED strobe fixture that really packs a punch!

Fitted with 18 high-power 1W cool white LEDs, it's impressively bright. The SnowBlind™ features full range brightness/intensity adjustment, rate of strobe (speed), and internal microphone sensitivity that are fully controllable by just 3 channels of DMX, or by its easy to use 4-button LED control panel menu. Sound sensitivity can also be manually adjusted by the sensitivity adjustment knob that's located on the rear of the unit.

You can also use the SnowBlind™ in standalone mode, or link two or more together to run in Master/Slave mode to make a brilliant array of strobe fixtures, while each unit consuming only a tiny 25W of power!

All these goodies are packed into an attractive, light-weight, black aluminum housing with single mounting bracket and dual locking knobs for easy installation. The SnowBlind™ is simply an astonishingly bright, full featured white light LED strobe fixture that's ready-to-go straight out of the box!
